## **Mandatory requirement to update NTN (National Tax Number) on Bill of Lading**

Dear Customers,

There have been certain changes in local Custom rules which will affect import shipment documentation into Pakistan i.e. requiring additional information to be given on the Bill of Lading.

According to Pakistan Customs, all Carriers are bound to file Customs manifest including Consignee NTN(National Tax Number) for each shipment.

Pakistan Customs will not accept the manifest if the NTN is missing. As per Customs rule, a non-manifested unit is not allowed to be discharged at Pakistan and will remain on board at customer's risk, cost and responsibility.

Thank you for your understanding and cooperation.
