

Low Sulphur Fuel Surcharge Update for Q3. 2026

Dear valued customers,

Thank you for your continued trust in our services.

Due to the recent rise in international oil prices, the fuel costs associated with vessel operations have continued to increase. As a result, we regret to inform you that we will be adjusting the Low Sulphur Fuel Surcharge (LSF) rate as set out below.

This adjustment is necessary to comply with the International Maritime Organization's (IMO) 2020 environmental regulations requiring the use of low-sulfur fuel, and to reflect changes in related fuel costs. We kindly ask for your understanding, as this measure is unavoidable under current market conditions.
