Re: Notice of Korea-Japan CRS (Cost Recovery Surcharge) Rate Increase

1. We would like to express our sincere gratitude to all our valued customers for your continued support and use of our services.
2. Recently, the prolonged military tension in the Middle East and the continuation of related conflicts have heightened the uncertainty of the international situation. As a result, increased volatility in international oil prices and rising fuel and vessel operating costs have continued to add to the operational burden on the Korea-Japan trade route.
3. In order to maintain stable service operations and preserve the quality of transportation, we regret to inform you that we will be increasing the CRS (Cost Recovery Surcharge) as detailed below. We sincerely ask for your understanding and cooperation.

Surcharge Name	CRS (Cost Recovery Surcharge)
Applicable Route	All Korea - Japan routes
Applicable Cargo	Export and Import cargo
Application Basis	Collect (at destination)
Effective Date	October 19, 2026 (based on vessel departure date from Korea and Japan)
Current Rate	20FT USD 50 / 40FT USD 100
Revised Rate	20FT USD 80 / 40FT USD 160

Thank you for your continued support and cooperation.
